WILSON MAKES TWO ARRESTS

Man Charged with Van Dyke Burglary and Woman Said to have Received Goods Brought from Cumberland. Now in Jail here.

Detective Charles H. Wilson, of Gettysburg and Special Officer Columbus Mead, of Baltimore, brought to Gettysburg on Tuesday afternoon Frank Shultz and Mrs. Beulah Sailer, both of Cumberland, Maryland. Shultz is charged with taking various articles from the home of Mervin Van Dyke between Gettysburg and Biglerville last March and Mrs. Sailer is held as a witness. The man is in the jail and the woman is in Sheriff Fissell's care. Both are former residents of Cashtown.

Mrs. Sailer claims that she did not get the watch from Shultz as alleged and that in addition she knows that he was not in the neighborhood of the Van Dyke home on the night the burglary was committed.

At the time of the burglary Mervin Van Dyke, who now resides in the Hammond building on the Centre Square, lived on the Biglerville road about four and a half miles from Gettysburg. On Sunday evening March 27, 1910, Mr. Van Dyke and family were spending the evening with his father at Goldenville. They left home about seven o'clock and when they returned about three hours later found the place in a bad state of confusion. Things were thrown about recklessly and it was at once seen that the house had been visited.

The buffet in the dining room had been ransacked and a number of table cloths taken, with other table linen. The silverware was taken out but not removed. Going up stairs the thief or thieves made a thorough search of the place and secured two watches, several rings and a child's bank containing some money. Mr. Van Dyke's clothes were searched and about ten dollars taken, the garments then being thrown into a corner.

The downstairs was again visited and a basket containing ten dozen eggs removed. The work proved to be quite arduous and the searchers took a few minutes to dispose of half a layer cake. A pie was taken along for further reference and the party also showed their love for good things to eat by removing three hams from the smoke house.

Entrance was gained by a front window.

A hearing is scheduled for Thursday.

KNOCKED DOWN BY EXPLODING GAS

Charles Long, Employee of Gettysburg Gas Company, Has Unpleasant Experience when Escaping Gas Explodes.

Charles Long, an employee of the Gettysburg Gas Company, was knocked down and sustained slight injury in an explosion of gas at the Wabash Hotel on Tuesday afternoon. Though struck severely Mr. Long pluckily resumed work a little later and continued with his duties.

Larger service pipes are being installed at the Wabash and Mr. Long was in the cellar attending to some of the work. A connection was to be made between the two pipes and while this was being done considerable gas escaped. A lighted candle used in the work was nearby and suddenly the accumulated gas exploded with sufficient force to knock Long down. He fell heavily on some boards and was unconscious for a few moments.

His eyebrows and hair were somewhat singed but after he regained his senses he said that he was able to go on with his work.

No other damage was done.

THE GREEN CAPS REMAIN

The Freshmen at college lost a chance to get rid of their little green caps when their debating team was defeated on Tuesday evening by the Sophomores. The subject was "Resolved, that the Initiative and Referendum should be Made a Part of the Legislative System of Pennsylvania."

The Freshmen team, C. A. Fasick, R. E. Haas and H. B. McNair upheld the affirmative, while the Sophomore team F. E. Smith, J. C. Haberlin and E. R. Heim defended the negative and won the debate on the decision of the judges, Wm. Arch McClean, Prof. W. A. Burgoon and S. S. Neely, Esq.

The student rules decree that if the Freshmen win two contests they may discard the caps. The first contest, the football game won in the fall, allowed them to remove the yellow buttons.

New York Caucus Nominee Lacks Eight Votes For Senatorship.

Albany, N. Y., Jan. 18.—A deadlock resulted from the ballot taken by the senate and assembly separately for United States senator.

William F. Sheehan, who led the Democratic candidates, received a total of 91 votes in both houses. Since 196 members voted, this number was eight less than the majority necessary for his election.

The senate voted as follows: Sheehan, 25; Shepard, 2; Herrick, 1; Gerard, 1; Littleton, 1; Depew, 20; absent, 1. In the house Sheehan got 66 votes.

Based upon the Democratic caucus, Sheehan can rely upon but ninety-one votes. Of the twenty-five bolters from the Democratic caucus twenty have signed an agreement to stick together on the proposition not to be controlled by the action of the caucus.

DEMOCRATIC CONFERENCE

Report of the condition of the **Biglerville National Bank** Leaders at Odds Over Revision of the Tariff.

Baltimore, Md., Jan. 18.—The much anticipated national Democracy conference here developed a radical difference of opinion between Senator Bailey, of Texas, and Champ Clark, speaker-to-be, over the method that the Democrats shall follow in revising the tariff. Otherwise it was a perfectly proper harmony conference, harmless and full of good cheer.

Inasmuch as Champ Clark is to be the leader of the Democratic forces in the next house and Senator Bailey in the senate, the differences between them seemed to be a good sized fit in the harmony ointment.

Representative Clark has declared for a revision of the tariff schedule by schedule. He came forward with the suggestion that it might be necessary for the Democrats even to tackle some things in the Payne-Aldrich law item by item.

Senator Bailey, on the other hand, wants to make a clear sweep of the Payne-Aldrich law from Genesis to Revelations. He wants a blanket tariff revision on a revenue basis, and believes that the sooner the Democrats can get at it the better it will be for them.

With the possible exception of Senator Bailey's "break," everything was avoided that could possibly start trouble at the gathering. It would have been regarded as high treason to have turned loose the smallest kind of a presidential boom. William Jennings Bryan was not mentioned once.

MRS. SCHENK GOT POISON OF DOCTOR

Swears He Gave Sugar of Lead to Accused Woman.

Wheeling, W. Va., Jan. 18.—The state sprung a sensation in the trial of Mrs. Laura Farnsworth Schenk, accused of poisoning her millionaire husband.

Dr. J. W. Myers, the "South Side" doctor to whom the chauffeur, Wilson, had referred, testified that Mrs. Schenk had secured sugar of lead and other poison from him. There was much wrangling over the admission of his testimony.

The cross-examination of Nurse Zuckler developed nothing of importance, and Lundy Wilson, Mrs. Schenk's chauffeur, was called to the stand. The witness said that he had driven Mrs. Schenk and Dan Phillips to the country on many occasions, principally at night, and that beer and sandwiches were taken on these trips. The car was usually driven to a point near Smithfield, O., the lights lowered, and witness dismissed until recalled by the auto horn.

Wilson said Mrs. Schenk had told him her relations with Phillips were not proper. He related incidents connected with the purchase of a diamond horseshoe pin, fur lined overcoat and other articles alleged to have been bought by Mrs. Schenk for Phillips.

Under the questioning of Prosecutor Handlan, Wilson declared that on the day following the alleged attempt of Mrs. Schenk to bribe the detective nurse he had driven Mrs. Schenk to the office of a South Side physician, and told of other trips to the same place.

"If anything ever happens don't know anything," the defendant had captioned him, he said, and then went into details of visits to fortune tellers.

When cross-examined by Mr. Boyce for the defense, Wilson showed a faulty memory. He could not recall dates and route of auto rides except those specifically mentioned in direct examination. It was also brought out that John O. Schenk had been riding with Phillips and Mrs. Schenk.

Under the questioning of Prosecutor Handlan, Wilson declared that on the day following the alleged attempt of Mrs. Schenk to bribe the detective nurse he had driven Mrs. Schenk to the office of a South Side physician, and told of other trips to the same place.

Baldhead Club

One is being Organized in a Western City.

Perhaps this report is a joke, but one thing is certain a "baldhead" is no joke to the man who wears it.

A club of baldheads formed in every city in America would be a good thing if its members could be induced to parade hatless, through the main streets of the city.

The writer would suggest that some of the members carry banners with inscriptions of such a character as to warn those who still have hair, that baldness is unnecessary; and in nearly every case it is the result of carelessness.

Banners inscribed as follows would be appropriate:

"We let the dandruff germ do it."

"The time to save the hair is when you have hair to save."

"When we are young, the dandruff germs worked every blessed minute. They dug our hair out by the roots, and now we aren't in it."

The best banner of all would be this, "We didn't use Parian Sage."

The People's Drug Store sells Parian Sage for 50 cents a large bottle, so do live druggists everybody. It is guaranteed to stop falling hair, itching scalp and to destroy dandruff germs and remove dandruff in two weeks, or money back.

WEIGH YOURSELF BEFORE USING

Weigh yourself before commencing to use Samoase, the great flesh-forming food. The wonderful sale on this preparation since first introduced in Gettysburg and the remarkable results following its use have made the People's Drug Store such enthusiastic believers in the great value of Samoase that they give their personal guarantee to refund the money if Samoase will not make thin people fat and restore strength and health to those who use it.

This is a strong guarantee, but the people of their customers who have seen so many of them look like walking skeletons become plump and well, solely through the use of Samoase that they feel they cannot say too much to induce people to try it.

This marvelous flesh-forming food is assimilated as soon as it is taken into the stomach, makes good rich blood, tones up the weakened system, helps to assimilate the food and makes the user plump well and rosy.

Cures

Rheumatism

If it Don't You Can Get Your Money Back, Says People's Drug Store.

Now when People's Drug Store, the well known druggist, makes such an offer as that, where Oh, where is the man or woman full of Uric Acid poison, which is the same as Rheumatism, who is going to turn it down?

People's Drug Store have sold a whole lot of Rheuma these last few months, and if it didn't do as advertised they could not afford to make the offer.

Here is more proof: Porter Smith, Dobbins, W. Va., writes: "I have been a great sufferer from Rheumatism for about 20 years, and the disease had become chronic. I began taking Rheuma with little faith in its virtues, but was better from the first day I began its use, and at this time have no more pains." —Feb. 20, 1910.

Rheuma never shirks its duty. It begins with the first dose to act on the kidneys, liver, stomach and blood, and to eliminate Rheumatic poison from the whole system. 50 cents at People's Drug Store, or mailed by Rheuma Co. Buffalo, N. Y. Send for free trial bottle.

WILSON TAKES OFFICE

Chief Executive of New Jersey Is Sworn In

Trenton, N. J., Jan. 18.—Woodrow Wilson is now governor of New Jersey. As a salute of seventeen guns boomed forth he took the oath, administered by Chief Justice W. S. Gummere, that he will bear true faith and allegiance to the government established in this state under authority of the people.

The induction of Dr. Wilson into the office of chief executive took place in the Taylor Opera House. Here the members of the senate and the assembly met in joint session, presided over by President of the Senate Ackerman, and witnessed the impressive inaugural ceremonies. Besides the lawmakers, the exercises were witnessed by 2000 people who crowded the theater to the doors.

SHOTS FOR BRIAND IN FRENCH CHAMBER

One of Would-be Assassin's Bullets Wounds Colleague.

Briand Escapes Bullets, But Colleague is Struck In Leg.

Paris, Jan. 18.—The chamber of deputies was thrown into a panic by an attempt made upon the life of Premier Briand.

Two revolver shots were fired upon the ministerial bench from the public gallery in the chamber, but the premier was unharmed.

One of the shots entered the leg of Leon Mirman, director of the department of public assistance in the ministry of the interior. The wound is not a serious one.

Briand was quickly surrounded by others of the ministry, and by the deputies and heartily congratulated upon his escape from death. There is no doubt that he was the intended victim, and only the poor marksmanship of Gisoline saved the minister from death or injury.

The would-be assassin is a man named Gisoline, who was formerly a clerk of the courts of Bayonne. He was wounded upon by policemen before he could use his weapon a third time if he had such an intention, and was cut from the place.

M. Briand was quickly surrounded by others of the ministry, and by the deputies and heartily congratulated upon his escape from death. There is no doubt that he was the intended victim, and only the poor marksmanship of Gisoline saved the minister from death or injury.

For a time the greatest confusion prevailed. The proceedings of the chamber had been going on as usual, and there was nothing to indicate that the crowd of spectators in the gallery included one who had designs upon the life of the head of the cabinet.

ROB'S PITTSBURG THEATRE

Well Dressed Man Holds Up Treasurer, Getting Away With \$500.

Pittsburg, Pa., Jan. 18.—A tall, well dressed stranger entered the office of the Lyceum theater here and, drawing a revolver from his pocket, ordered the treasurer, Joseph Paul, to be quiet.

Then the man robbed the office of \$500. Hastily pocketing the money, he ran into the crowded street and escaped.

NECK BROKEN; RECOVERS

X-Ray Photograph Shows Vertebrae to Have Knitted Perfectly.

New Orleans, Jan. 18.—One of the most remarkable cases on record of recovery from a broken neck was noticed at the Charity hospital when a plaster cast was removed from Philip Hoffman, a boy of fourteen years, and an X-ray photograph showed the vertebrae to have knitted perfectly.

James Martine, 20, ally III.

Plainfield, N. J., Jan. 18.—James E. Martine, a candidate for United States senator, who has been quite ill with the grippe, and who was thought to be improving, has had a relapse and his condition is quite serious. A physician who was summoned to the Martine home found the patient in very weakened condition. His family have been quite alarmed about his condition.

Cousin of President Garfield Dead.

Yonkers, N. Y., Jan. 18.—Bailey Hobbs, a second cousin of President Garfield, and an intimate friend of President Van Buren, died at his home here, aged ninety-two years.

The practice of covering strawberries and tender raspberries in latitudes where the winters are severe is common in many of the northern states.

More rarely is the same plan followed in the case of fruit trees, such as the peach. One Colorado grower has followed this practice for years, and the results following such covering have been uniformly successful. From the time the trees are transplanted he root prunes so as to do away with a taproot as well as the roots extend far in two opposite directions. When ready to cover, a trench running at right angles to the remaining roots is started about four feet from the trunk and dug toward it, being gradually deepened. The soil about the roots is then moistened by thorough irrigation, and a little later the trunk is carefully pushed over into the trench, the limbs bent down, covered with straw and a three inch layer of earth. The grower in question harvested last fall over \$1,000 worth of peaches from 438 trees thus covered, while from a whole row not so covered he picked just one peach.

Poison Pellets Kill Baby.

Norristown, Pa., Jan. 18.—Elmer Hendricks, aged three years, son of Elmer Hendricks, a farmer of near New Hanover Square, is dead from poisoning. The baby climbed on a chair and from a cupboard got a box of strichnine pills, medicine of his grandmother, and swallowed twenty pellets.

Train Kills Three Miners.

RE-ELECT OLIVER U. S. SENATOR

Plattsburgh Returned For Full Term of Six Years.

DISCUSS CITY GOVERNMENT

Governor Tener's Suggestion to Rule Cities by Commission Arouses Interest Among Legislators.

Harrisburg, Pa., Jan. 18.—United States Senator George T. Oliver, of Pittsburg, was re-elected senator for the full term of six years, beginning March 4 next.

Governor Tener appointed Walter H. Gaither, of Allegheny county, to be private secretary.

He also nominated the following to the senate for confirmation:

Robert McAfee, Allegheny county, to be secretary of the commonwealth.

John C. Bell, of Philadelphia, to be attorney general.

Samuel C. Todd, Washington county, to be executive controller.

Thomas J. Stewart, Montgomery county, to be adjutant general.

The senate immediately confirmed the nominations. Separate ballots were taken in each house for senator.

The vote in the senate was as follows: George T. Oliver, 34; J. Henry Cochran, 7; Julian Kennedy (Ind. Rep.), 5; William Flynn (Rep.), 2.

Of a total of 201 votes cast in the house, Oliver received 147. The full ballot in the house was: George T. Oliver (Rep.), 147; Julian Kennedy (Keystone), 20; J. Henry Cochran (Dem.), 20; James E. Reilly, 3; George W. Guthrie, 1; Joseph B. Cohen, Philadelphia, 1; William H. Berry, 1.

Secretary of State Knox, who had been placed in nomination by a Keystone member, sent a letter withdrawing from the race. William C. Freeman, of Lebanon, who was one of the six absenteers, telegraphed that serious illness in his family prevented his presence, but that if he were in attendance he would vote for Senator Oliver.

Governor Tener's suggestion, contained in his inaugural address, that the legislature ought seriously to consider the advantages open to cities of the commonwealth through "government by commission," was much discussed in a quiet way in the senate and house.

Senator James P. McNichol, on his attention being called to the question, observed that the idea had found favor with certain Pittsburgh interests, but said that he was non-committal when asked if there was a possibility of such a radical proposition being applied to Philadelphia.

Senator McNichol's failure to deny that there was foundation in fact for the persistent reports that a bill embodying Governor Tener's "government by commission" suggestion, and his admission that the board of trade of Pittsburgh is expected to appear before the legislature in support of the idea had a disturbing effect on senators and representatives, who look on the idea as having explosive properties extremely dangerous to those with the temerity to handle it.

A BLACKMAILER CAPTURED

Man Who Threatened Countess Von Scherr-Thoss Gets Prison Term.

Berlin, Jan. 18.—Countess Muriel Von Scherr-Thoss, daughter of Henry White, formerly American ambassador to France, is breathing easier as the result of the success of the police in apprehending a man who threatened to dynamite her castle at Steinselendorf, in Silesia, in an attempt to blackmail her.

The young American countess, who married into the German nobility in 1909, has been pestered for weeks by letters from a man named Fiedler, who lived in the neighborhood.

This man's appeals for money having proved unsuccessful, he wrote the countess that unless she deposited a large sum of money in his bank he would blow up her castle with a dynamite bomb. A decoy letter purporting to contain the money demanded was sent to Fiedler, who was arrested as it was delivered. He protested his innocence, but a search of his dwelling revealed incriminating evidence of guilt.

The local courts of Schwerin have just sentenced him to two years at hard labor.

Murder Verdict For Man; Woman Free

Lancaster, Pa., Jan. 18.—The jury in the case of George Watson, sixty years old, and Julius George, indicted for the murder of Isaac Mackie, aged twenty-one years, rendered a verdict convicting Watson of murder in the first degree and acquitting the woman. During the party at the Watson home in Columbia on Nov. 14, Watson accused Mackie of being too friendly with Mrs. Harris, his housekeeper. In the quarrel that ensued he stabbed Mackie in the back, killing him instantly.

Under the terms of the parole act, approved June 25, 1910, prisoners must have served one-third of their sentences to enjoy the benefits of the law. This would not make Walsh eligible until Sept. 19, 1911.

THE GRANGE

Grange

SURVEY OF GRANGE FIELD.

Interesting Facts Gathered From Reports of State Masters.

The reports made by state masters indicate fairly well the status of the work in the grange states. California reports conditions as promising, with interest increasing, and anticipating the holding of the Panama exposition at San Francisco in 1915, California will invite the national grange to meet there at that time. In Colorado ten new granges have been organized, and great interest has been manifested there in the grange field days. In Iowa twelve new granges have been organized. In Kansas there are 7,000 members. Owing to the failure of several farmers' organizations in the past it has made grange organization more difficult. One of the largest co-operative grange enterprises is at Olathe, Kan., which is prosperous enough to declare a semiannual dividend of more than 15 per cent. Idaho reports gains all along the line and co-operative buying as notably successful. In Connecticut co-operative buying has saved the grange members from 5 to 7 per cent on their purchases, and the membership has increased nearly 1,700 during the past year.

In Massachusetts eleven new granges have been organized during the past year, and there are now 240 in this state, with 27,000 members. Two distinct objects are before the Bay State grangers—first, a vigorous effort to promote a larger interest in agriculture and, second, an awakening to the responsibilities for community leadership. The grange has co-operated totally with the State Agricultural society and farmers' institutes. In New

ROBERT EATON.
[Master Illinois state grange.]

Jersey there are 142 subordinate granges, with about 18,000 members. In New York the grange work is in fine condition. The membership now is almost 100,000 in something like 750 granges. The grange co-operates heartily with the State Agricultural society and with Cornell Agricultural college and the farmers' institutes. The grange is endeavoring to secure the introduction of the study of agriculture in high schools. Co-operative buying and selling runs into the large thousands of dollars. Ohio reports forty-seven new and reorganized granges during the past year, with 4,800 new members. There are nearly 40,000 members in that state, and the grange has \$28,000 in the treasury. Grange farm property is practically all insured in grange companies.

In Rhode Island there are thirty-five granges in thirty-two townships, and the Order is in a prosperous condition. Washington state reports the organization of 115 new granges the past year, which is more than one-quarter of the total number organized in twenty-eight states. There is great activity in co-operative buying and selling. In West Virginia sixteen granges have been organized the past year, and the Order is holding its own in the face of much difficulty. In Wisconsin and Minnesota the Order is weak. Missouri, which at one time many years ago had 1,200 granges, reports a comparatively small number of granges at the present time, but there is a gradual growth in membership. In Oregon twenty-four new granges were organized last year, and the state has 9,000 members. Pennsylvania reports show that this state is third in organization work the past year, only surpassed by Washington and Michigan. The legislative committee of the state grange is looked upon as a real power in legislation. Efforts are concentrated on two great reforms—viz., equalization of taxation and the initiative and referendum. Instruction in agriculture in the public schools has become an accomplished fact, and a grange educational achievement is found in the township high schools that now dot the state.

O. H. Kelley's Birthday.

A pleasant note from O. H. Kelley, now living at 2014 Kalorama road, Washington, conveys the intelligence that he will be eighty-five years old on Jan. 7. Remember him, Patrons, on that day with letter or postal conveying congratulations to our worthy founder.

Many who took the precaution during the last protracted dry spell to sink their wells to a good depth are feeling pretty comfortable these days when they see many of their neighbors driving their stock to flowing streams or hauling water to them in tanks or barrels.
